

Number of groups in each partition

The graph displays two data series. The first series, represented by open circles, shows a peak at a value of approximately 0.08 and then a decline. The second series, represented by filled circles, shows a steady increase from a value of approximately 0.08 to 0.12, followed by a sharp drop at 0.14.

| Values | Open Circles (Y) | Filled Circles (Y) |
|--------|------------------|--------------------|
| 0.06   | 5                | -                  |
| 0.08   | 9                | 6                  |
| 0.10   | 4                | 7                  |
| 0.12   | -                | 8                  |
| 0.14   | 2                | 3                  |
